

MAKE AN OWL HOLLOWFACE

WHAT YOU'LL NEED:

- Owl hollowface printout
- Scissors
- Tape or glue

Fold this owl to create an amazing optical illusion!

INSTRUCTIONS:

1. Cut out the owl and base. Carefully cut the dotted lines along the owl's face. Note that you will cut out a small triangle near the top of the owl's head. This will create a tab that you will need later.
2. Now, practice making the 2 types of folds used in this project: mountain and valley folds.

Mountain Fold: Folding the paper down to create a peak, looks like the letter A.

Valley Fold: Folding the paper up to create an indentation, looks like the letter V.

3. Starting at the owl's head, find the lines to the left of the owl's head. Fold along these lines, creating a valley fold. Find the line on the owl's ear and create another valley fold.
4. Find the line at the top of the owl's head, it should form a V shape. Fold the left half of the V towards you, creating a valley. Continuing to follow this line, fold the right eye up towards the top of the owl's head. This will create a valley between the owl's eyes.
5. Find the right side of the V. Cut a slit following this line above the eye to the center of the V. Gently pinch this section of the V in towards the eye creating a valley fold. Secure this folded section with a piece of tape, placed on the back of the owl's head.
6. Make a valley fold at the A and B tabs and secure the A and B tabs in place by taping or gluing them to the back and sides of the owl's head.
7. Now you're ready to fold the base so the owl can stand up. Find the solid lines along the owl's body and in the leaves. Fold the C and D flaps in towards the back of the owl in a mountain fold and fold in the F and G tabs.
8. Then, fold up the bottom flap along with its E tab.
9. The flaps and tabs should fit together forming a base that allows the owl to stand up. Affix the F and G tabs to the flaps with tape or glue.
10. You're all done! Place the owl on a flat surface, close one eye, and move side to side to observe the cool hollow face illusion!
