

# SALT WATERCOLORS

The secret ingredient in these paintings is salt!

## MATERIALS:

- Salt
- Paper
- Watercolor paint
- Paint brushes
- Glue

## HOW TO DO IT:

1. There are a couple different ways you can use salt to make amazing works of art! The first is to paint with watercolors on the paper and then sprinkle some salt over your images. Watch what happens when the salt touches the paint!
2. Another technique you can use is to make designs or images using glue. Cover the glue with the salt and let it dry. Then, use your watercolor paint to add color to the raised image you made!
3. See if there is anything else you can come up with! Try different types of salt, like table salt or sea salt and see if that changes your painting. Have fun getting creative!
